

Scale4

Video Display Expander

The Haivision MCS Scale4 expander gives customers the ability to quickly and easily add more displays to video walls of any type and size.

Haivision offers two convenient Scale4 expander options – as a standalone appliance or as an add-in board for use in Alpha FX Elite or Alpha FX Core video processors.

USER-FRIENDLY

- One UHD / 4K60 input
- Four HD 1080p outputs
- Bezel corrects, rotates, crops, scales, and mirrors
- HDCP support on all inputs and outputs
- Adjust all scale factors to adapt to input changes
- Independent platform control via a network interface
- Infinite configurations
