

The optimal Stryke model and accessory options for your unit depend upon the specifics of its mission – how the Stryke command and control system will be transported and the environments in which it will be used.

1 STRYKE PROCESSOR

Stryke

Rugged, no moving parts, designed for harsh environments.

2 CHOOSE CORE PACKAGE (OPTIONAL)

Stryke Core Package

The Stryke and accessories are packed into a custom-cut foam insert in the ruggedized case to keep your equipment protected, organized, and readily available. A 15.6" control point with a USB-C cable is also included. Remove equipment from case prior to use.

3 CHOOSE DISPLAY (OPTIONAL)

3x17.3" LCD Video Wall

An all-in-one, 3x1 portable LCD display wall is available to order with all Stryke models.

Customer Provided

Use your own display solution including projectors.
